

TVET for Sustainable Development

Sample Course 1: Introduction to TVET for Sustainable Development

Participants reflect the importance of the overall concept of sustainable development (SD). They will also familiarize themselves with the role that education and TVET could play in meeting requirements of the sustainable development goals (SDGs). With view to their own situation, participants will analyse what they can do in their own institutions to support activities on TVET for SD in their own countries.

- **Content, elements, format and duration can be customised to the respective needs**

Learning outcomes

On completion of the training, participants

- are able to describe requirement, meaning and content of the concept of sustainable development and the sustainable development goals
- can assess the social, ecological and economic effects of exemplary purchasing decisions
- are able to explain approaches for sustainable development at intergovernmental and national level
- are able to discuss global initiatives and activities on promoting TVET for SD and how they can support them

Contents

- Global ecological and social challenges in the 21st century
- Sustainable development: the key guiding principle for global action
- Approaches for sustainable development at intergovernmental and national level (e.g. SDGs)
