

# Strategic TVET Management and Institutional Leadership

Sample Course: TVET Governance, Policies and Strategies and their Impact on Institutional Level

Management staff of TVET institutions are often challenged by national TVET reform processes designed to increase the efficiency, relevance and responsiveness of the TVET system and its institutions (e.g. financing, cooperative training). Those policies and strategies need to be integrated into the day-to-day work of a TVET institution. This not only requires a better understanding of reforms and their purpose on side of the schools, but also its feasibility at institutional level.

This course aims at enabling the management of TVET institutions to breakdown and implement national TVET policies and strategies at institutional level.

**Content, elements, format and duration can be customised to the respective needs**

## Learning outcomes

On completion of the training, participants are able to

- describe the course of policy development and policy formulation
- describe stakeholders involved in the national reform process and their roles
- interpret national policies and strategies of their respective countries
- identify personnel and financial resources as well as other instruments to operationalise national TVET governance at institutional level

## Contents

- TVET governance structure and mandates of regulatory authorities
- An international perspective of TVET systems and policies
- Educational / sector policies and TVET policies and strategies
- Identification of the most relevant TVET reform issues for the participants' country
- Exemplary analysis of national policies

## Formats

Face-to-face or hybrid.

The implementation of the training considers interactive methods and encourages participants to transfer the gained knowledge to their working context.

## Language

- English
- Upon request: other languages with interpreters

## Target groups

- TVET management staff
- The course can also be conducted for staff from authorities. In this case, the focus is on the strategic level, especially the development of feasible policies and strategies as well as their promotion.

## Duration

- 5 days

## Additional option

- Online coaching

## Certificate

The participants will receive a certificate of participation after successful completion of the course.
