

Digital Teaching and Learning Specialist (for Teachers)

Course 4: Implementation of Digital Teaching and Learning Activities

This course is an engaging exploration into the practical implementation of digital learning, offering an in-depth look at various tools and platforms essential for modern education. It covers a range of virtual classroom platforms, learning management systems, and tools for creativity, communication, and collaboration. Designed specifically for teachers, this course provides hands-on experience with these digital tools, allowing participants to understand their didactic value and how to integrate them effectively into educational practices. The focus is on real-world application, ensuring participants are well-equipped to use digital media in vocational learning environments.

- **Content, elements, format and duration can be customised to the respective needs.**

Learning Outcomes

On completion of the training, participants

- acquire skills to conduct and manage virtual classrooms, engaging learners effectively,
- gain proficiency in using learning management systems for delivering and enhancing education,
- identify and utilize tools for interaction, creativity, collaboration, and communication in an educational context,
- implement and evaluate teaching and learning activities using digital media, including feedback and progress assessments,
- and recognize and address the support needs of learners, ensuring inclusive and accessible digital learning environments.

Contents

- Hands-on exploration of digital tools for blended learning, including virtual classrooms and learning management systems.
- Critical reflection on the didactic values and organizational limitations of each digital tool.
- Application of these tools in daily educational work, integrating them into current teaching and learning methodologies.
- Interactive sessions focused on developing and refining digital teaching strategies.
- Final project development and completion, applying course learnings to practical scenarios in participants' institutions.

Formats

- Face-to-Face format
- Virtual format implemented with synchronous and asynchronous (self-learning) sessions.

Language

- English
- Upon request: other languages with interpreters

Target groups

- TVET teaching staff

Participation requirements

- Basic ICT skills
- Motivation to participate in the digital transformation of training.

Duration

- 30 hrs

Equipment

- Notebook / PC
- Stable internet connection
- Integrated or external microphone
- Webcam

Certificate

The participants will receive a certificate of participation after successful completion of the course.
