

International Leadership Training – Master Trainer

International Competence Development in Technical and Vocational Education and Training (TVET)

Competitive TVET systems need vocational teachers, trainers, instructors and specialists, who are qualified according to international standards. This cross-cutting International Leadership Training is tailored to the demands of competitive TVET systems, fostering the qualification of TVET professionals who will be enabled to act, manage and lead in complex processes of TVET practice, planning and development.

Content, elements, format and duration can be customised to the respective needs.

This topic consists of 7 modules.
