

TVET and Workforce Development

Sample Course 3: Evaluation, Measurement and Exploration of Educational Supply & Demand

The core topics of this course focus on management and evaluation of TVET colleges to support quality-based teaching and learning. For the best supply of learning processes, requirements and principles for the work of TVET colleges will be discussed and solutions will be considered. Concepts will be offered, which provide solutions for the organisation of processes, educational supply and the assessment as well as for the measurements of work-related competences.

Content, elements, format and duration can be customised to the respective needs.
